Due to the sensitive nature of SSNs, we strongly recommend that you either do not display the SSN or mask the first 5 digits on your payroll reports. Since you have elected to display your employees' full SSNs on your reports, you should take all necessary precautions to safeguard these documents and to securely dispose of them. (You may change your selection to remove full SSNs from your reports at any time.)

Due to the sensitive nature of SSNs, we strongly recommend that you either do not display the SSN or mask the first 5 digits on your payroll reports. Since you have elected to display your employees' full SSNs on your reports, you should take all necessary precautions to safeguard these documents and to securely dispose of them. (You may change your selection to remove full SSNs from your reports at any time.)

Due to the sensitive nature of SSNs, we strongly recommend that you either do not display the SSN or mask the first 5 digits on your payroll reports. Since you have elected to display your employees' full SSNs on your reports, you should take all necessary precautions to safeguard these documents and to securely dispose of them. (You may change your selection to remove full SSNs from your reports at any time.)

Due to the sensitive nature of SSNs, we strongly recommend that you either do not display the SSN or mask the first 5 digits on your payroll reports. Since you have elected to display your employees' full SSNs on your reports, you should take all necessary precautions to safeguard these documents and to securely dispose of them. (You may change your selection to remove full SSNs from your reports at any time.)
